# Sunbelt

## Integration delivering improvement in all key metrics

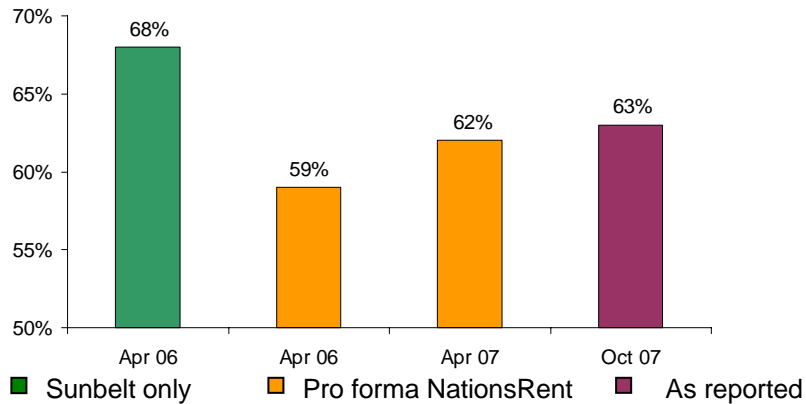

EBITDA margin

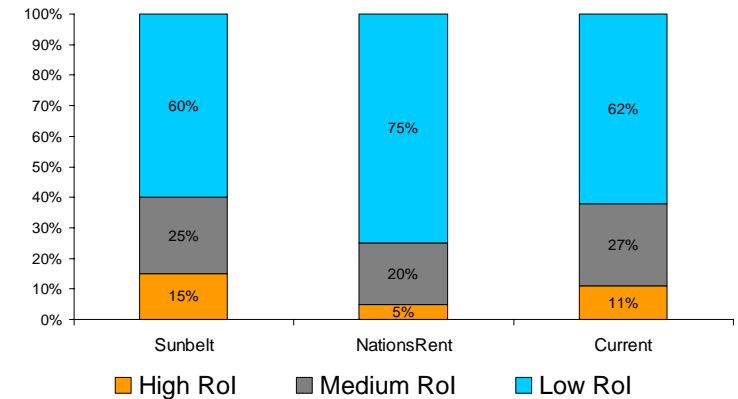

Operating profit margin

Dollar utilisation

Fleet reconfiguration

# Sunbelt

## Scope for further margin improvement

	<u>Sunbelt</u>	<u>At acquisition</u> <u>NationsRent</u>	<u>Combined</u>	<u>LTM</u> <u>October 2007</u>
Proportion of stores generating >25% contribution	75%	20%	50%	65%
Proportion of stores generating <25% contribution	25%	80%	50%	35%

- Investment in growth capital expenditure to drive improvement in revenue and contribution of profit centre infrastructure, particularly smaller NationsRent locations

# Sunbelt – fleet size

Improving physical utilisation and increasing fleet size will drive revenue

Physical utilisation

Average fleet size

- Physical utilisation of the reconfigured fleet has improved throughout the year. Relative improvement to last year expected to continue
- Average fleet size in H1 was 2% lower following the NationsRent fleet reconfiguration
- As at end of October fleet size was comparable with previous year
- Investment in fleet growth in line with market opportunity

## Sunbelt – revenue

Outside Florida – rental revenue growth is 4% in the first half on a level fleet  
 – experience in Florida shows flexibility of the model

	Half year *			Average fleet*		
	<u>2007</u> \$m	<u>2006</u> \$m	<u>Growth</u> %	<u>2007</u> \$m	<u>2006</u> \$m	<u>Growth</u> %

Sales	<u>55</u>	<u>83</u>	<u>-33%</u>			
Total	<u>809</u>	<u>828</u>	<u>-2%</u>			

\* Pro forma for NationsRent

- Reduction in low margin sales of new equipment at NationsRent continues
- Florida
  - Local issues drive rental revenue decline from prior periods' inflated high
  - Management of the downturn shows flexibility of the model
    - Fleet reduced
    - Cost base reduced
    - Florida still delivering 31% margin

# US – markets: leading indicators still strong – we are late cycle

Unemployment is extremely low

Industrial production is strong

Inflation adjusted corporate profits remain high

So far, economy has held up - real US GDP growth

# US construction markets

## Specific markets indicate no immediate downturn

Residential and non residential markets operate in different cycles

Both Institutional and Commercial non residential construction remain strong

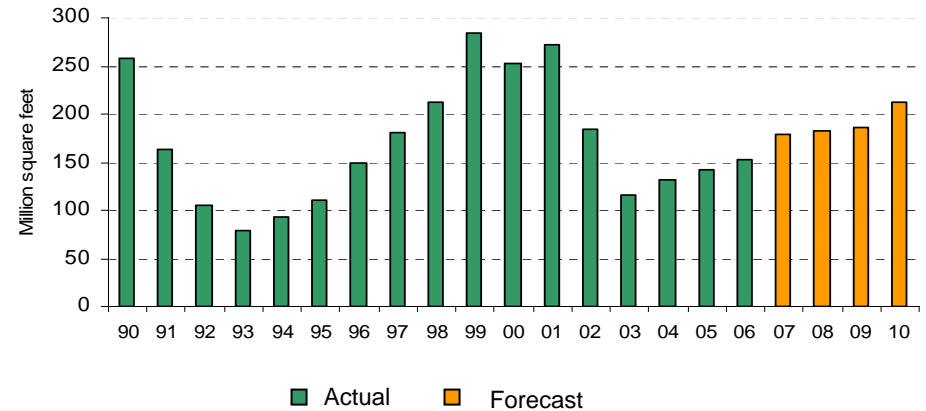

# Markets

## Inflation adjusted data suggests non residential construction is mid cycle

Price inflation

Commercial building completions

- Non residential price inflation moderating
- Commercial building completions have only reached the levels of 1996/1997 – middle of the last cycle

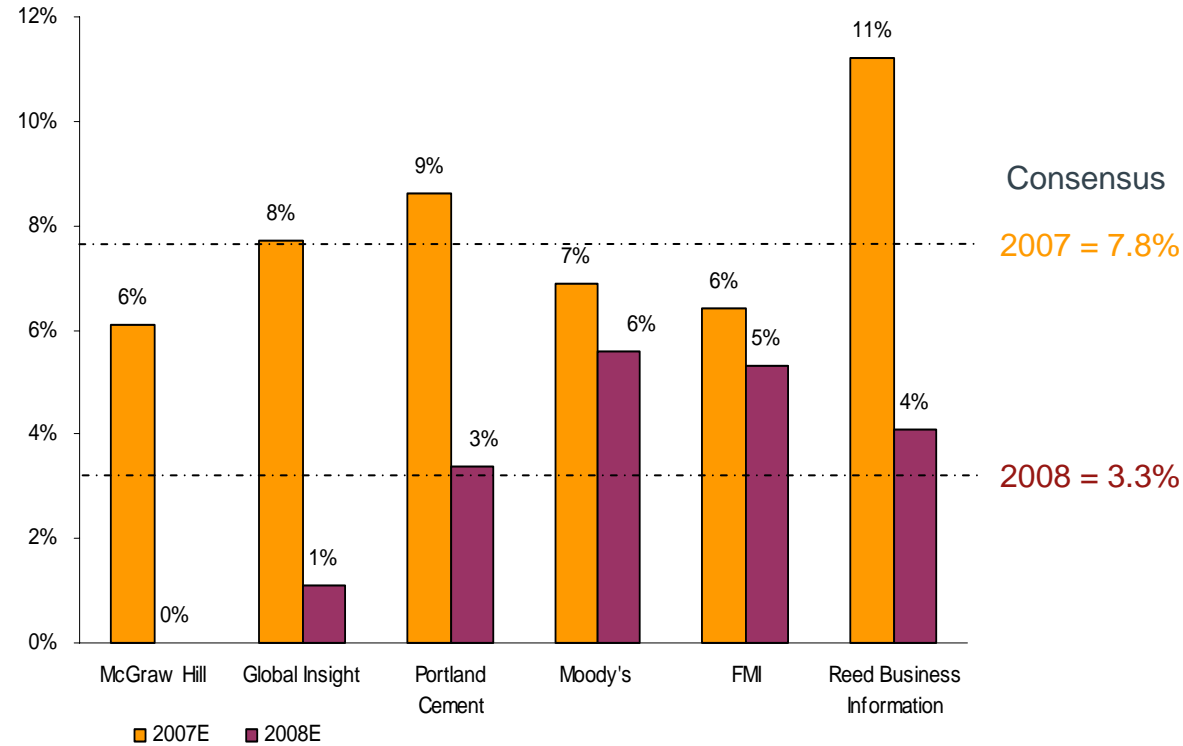

# Sunbelt – markets

Market forecasts indicate continued growth into 2008/9

Non residential construction growth

AND

Increased rental penetration potential

= Strong continued organic growth

# A-Plant – trading results

The strong profit growth experienced last year continues

	Half year*			LTM*

Return on Investment				<u>10.2%</u>	<u>7.8%</u>	

\* Pro forma for Lux

# A-Plant

## Revenue drivers

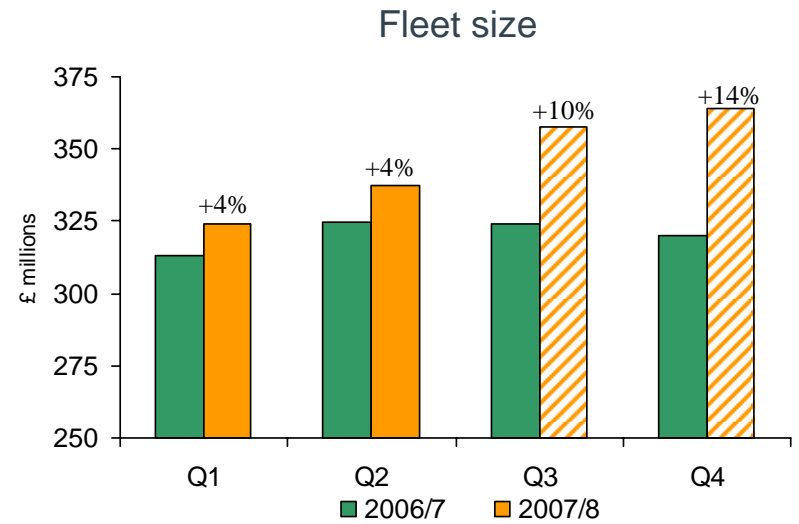

- Focus on full range supply to contractor customer base driving market share gains
- Sales structure with balance of key account and field sales participation
- Customer service benefiting from capital investment in both fleet and profit centre infrastructure
- Major new deals signed (eg Norwest Holst, Wates, Balfour Beatty Infrastructure)
- Market share gains
- 8 consecutive quarters of year on year revenue growth

### Growth

Average fleet size	+4%
Utilisation	+3%
Rental rates	<u>0%</u>
Total revenue	<u>+7%</u>

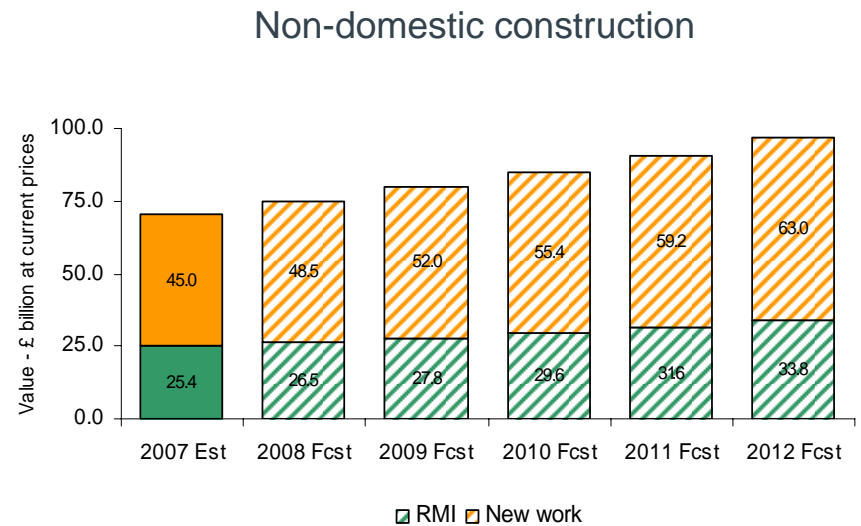

# A-Plant – improving metrics

Record physical utilisation of a growing fleet delivering improving margins and RoI

# A-Plant – markets

Non residential construction growth double the rate of GDP at c.5% per annum

- Good market conditions generally, supported by major projects such as Crossrail, the Olympics, the Commonwealth Games and utility infrastructure spending
- Residential market likely to slow but only 6% of our business
- Legislation and staff shortages will continue to drive outsourcing of products and services

# Technology – trading results

## Significant growth in revenues and margins again delivered

	Half year			LTM

Return on Investment				<u>43.3%</u>	<u>31.9%</u>	

\* At constant rates of exchange

- Both offshore and onshore markets remain good
- Offshore benefiting from new deeper water geographies and the need to maintain ageing fields which are now profitable given the price of oil
- Onshore is also developing as health and safety requirements drive greater inspection and maintenance and environmental monitoring becomes more important
- Rothschild appointed to perform review of all strategic options

# Summary

- Markets for all three divisions remain good
- NationsRent integration concluded successfully – continuing opportunity for improvement
- A-Plant operating at record utilisation levels with strong profit growth
- Leverage in the middle of our 2-3 times target range and expected to reduce next year
- Dividends rebased with 50% rise in the interim dividend to 0.825p per share and a similar increase expected in the final dividend
- Share buy-back of up to 5% of issued equity share capital
- Rothschild appointed to perform strategic review of Technology
- The Board has confidence in the Group's prospects for the full year and beyond
